fice employee to earn from \$1 per hour up, in their spare time. Free School of Instruction for salesmen. Write Massachusetts Bonding and Insurance Company, Saginaw, Michigan capital \$1,500,000. 17-2-c

PLAY GREENVILLE FRIDAY
The Alma high school football team although crippled, is expecting to put up a hard battle with the Greenville high school eleven on the local grid Friday afternoon, and has high hopes of being able to take the visitors into camp. The Greenville aggregation comes to Alma with a good record for the season and should be able to give the locals a hot tussle, and may prove to be more than Coach Mullin's crew of gridders can handle. It is expected that there will be a few changes in the high school line-up for the Friday afternoon game, which will be called probably at 3:15.

THE THEATRE

The Idlehour
Arrangements have been made for the appearance here of the World Famed "Kilties" Band Sunday when they will introduce all their special features that have made them famous. The "Kilties" is recognized as one of the best musical organizations in the world. They present music of every type, but, of course, they excel in the music of the heather. Every member is a finished musician and a soloist, and the ensemble of the band is so harmonious and so delightful that the music lovers will have a rare treat. The special features include singing, bag pipers, soloists and Scottish dances just as they are presented in the Highlands of Scotland.

"Of Two Evils," Etc.
A child with his mother was visiting some relatives. One day upon being naughty he was put to bed in the middle of the day. After being in bed a while he called for his mother and said: "Mother, Aunt Jennie spanks her girls when they are naughty. Won't you please spank me and let me get up?"

Insects That Sing.
Among the natural curiosities of Japan are singing insects. The most prized of these is a black beetle named "susumushi," which means "insect bell." The sound that it emits resembles that of a little silver bell.

No Hasty Judgment.
What your mirror tells you you may depend upon as the result of reflection.—Boston Transcript.

WHEN A CHILD HAS CROUP
Thousands of mothers say Foley's Honey and Tar Compound is the best remedy they know for croup, coughs and colds. It cuts the thick, choking mucus, clears away the phlegm, opens air passages and eases hoarseness. The gasping, strangling fight for breath gives way to quiet breathing and peaceful sleep.

Hoat Mon!—The Kilties are com-
ing!—Idlehour Sunday.—adv.

Dietetic Habits.
Some people seem to think that a vegetarian is a curiosity. A rough calculation shows that the population of the world, now estimated approximately at 1,600,000,000, is said to be divided as to dietetic habits about as follows: Strict vegetarians, 250,000,000; practically vegetarians, but eating a little fish or flesh, 450,000,000; eating meat about once a week (on high days and holidays), 500,000,000; eating meat daily and sometimes more than once a day, 400,000,000.

Queer Epitaphs.
Queer epitaphs are frequently fakes; but the following really appears in a Salop churchyard: "Elizabeth, the wife of Richard Barklamb, passed to eternity on Saturday, 21st of May, 1797, in the seventy-first year of her age. Richard Barklamb, the Antepositive Uxorious, was interred here, 20th Jan., 1806, in his eighty-fourth year." What an antepositive uxorious may be is not explained.—Cardiff Western-Mail.

Bring Up the Reserves.
John was visiting his grandmother, who lived in the country. One day his grandmother found that John had but a few clean clothes left, so she told John to write to his mother and tell her to send him some new clothes. John obeyed immediately, and in a few minutes returned and showed her the letter, which was as follows: "Dear mamma, please send me a reinforcement of clean clothes."

Combs.
Combs have been used in the toilet since very ancient times. The Greeks, the Egyptians and the Roman ladies used them to arrange and hold up their hair; even ladies among the Swiss lake dwellers seem to have been familiar with them. Some of these were made of wood, some of bone, of horn or of ivory. Specimens have often been found in recent years.

That Golden Tomorrow.
It is easy to believe in that golden tomorrow. To young people particularly, the future seems bright with promise, no matter what the complexion of the present. But it should be remembered that tomorrow is likely to have a strong resemblance to today, and that the future is made golden by ardent work in the present.

Erectness.
Sit, stand and walk erect. This keeps our circulation in order and also expands our lungs to the fullest. Be straight like the Indian who believed in being erect, and in reaching his highest stature that he might the better listen to the voice of the Great Spirit.—Camp Fire Magazine Wokepo.

Swift-Running Animals.
The swiftest dog in the world, the borzoi, or Russian wolfhound, has made record runs that show 75 feet in a second, while the gazelle has shown measured speed of more than 70 feet a second, which would give it a speed of 4,500 feet in a minute if the pace could be kept up.

Very Much Out of Place.
Among the guests at a reception was a distinguished man of letters. One of the ladies present suggested to the hostess that he seemed to be out of place at such a party. "Yes," replied the hostess, with a bright smile, "you see, he can't talk anything but sense."

Talent.
Talent is what enables the man who writes you a letter about cord tires to make you think you need five new ones right away, though before you received his communication your heart had bent high with hope that the ones you had would last through the season.

Almost Beyond Imagination.
Astronomers reckon that there are at least 1,000,000,000,000 suns in the universe; and some of them are so far distant that light starting from them long before the earliest dawn of human history has not yet had time to reach us.

Lay of the Last Men.
"The Lay of the Last Minstrel" may have caused some apprehension in its day, but were the lay of the last here to be announced in ours there would certainly be a panic.—Seattle Post-Intelligencer.

What It Shows.
The woman who worries overmuch about the kind of hat she is going to wear shows that the hat will be worth a good deal more than the head it is to cover.—New York Mail.

Wire From Ounce of Platinum.
Platinum is so ductile that a wire 1,800 miles long could be drawn from a single Troy ounce of the metal.

Fat Not Used.
Burma is one of the few lands in which fat is not used for lighting or industrial purposes.

Silkworm's Fast Growth.
In 28 days from hatching a silkworm increases 4,000 times its original size.

Daily Thought.
They never fail who die in a great cause.—Byron.

Italian Philosopher-Martyr.
February 17 is the anniversary of the burning in Rome, in 1600, of the Italian philosopher, Giordano Bruno. He was subjected to continual and terrible persecution for seven years prior to his death, in the hope that he would recant. In 1889 a monument was erected to him under papal protest at the place where he perished at the stake.

Hoat Mon!—The Kilties are com-
ing!—Idlehour Sunday.—adv.

Above, Not Against.
We may not be able to dissipate the forces which war against us, but we can strengthen the forces which range themselves for us. We may not be able to change the conditions in which we must live, but we can train ourselves to be more brave and patient in their endurance; to keep our spirits above them, instead of in constant irritation against them.

Nell Gwynne Custom.
The custom of placing an orange on a plate near the door of Savoy chapel, London, the Sunday after Christmas is probably a survival of the custom which prevailed at this chapel after the death of Nell Gwynne. In those days it was usual, in memory of the orange-girl, who was notably large-hearted and a kindly giver of alms, to place an orange on the plate whenever alms were distributed.

Good Rule for Life.
We are ruined, not by what we really want, but by what we think we do; therefore, never go abroad in search of your wants; for if they be real wants they will come in search of you. He that buys what he does not want, will soon want what he cannot buy.—Colton.

Corked!
A nervous old lady, on getting into a train, discovered that a horrid man with a gun was in the corner seat. "I hope that thing is not loaded," she said. "Yes, ma'am, it is," said the man. "However, I will insert this cork in the muzzle. There! quite safe now."

Long Day and Night.
The north pole has six months day and six months night, the sun apparently traveling in a circle around it from the time it appears in March until it disappears in September.

Nemesis.
Nemesis was a goddess of justice and retribution. In Greek mythology Nemesis was a goddess personifying allotment, of the divine distribution to every man of the precise share of fortune good and bad.

Fellowship.
It is for him that is lonely or in pain to dream of fellowship, but for him that is of a fellowship to do and not to dream.—William Morris.

EASIER NOW THAN LATER
It is easier to break up a cold or check a cough now than it will be later. Persistent coughs that "hang on" all winter pave the way for serious throat and lung diseases. L. W. Day, 65 Campbell Ave., E., Detroit, Mich., writes: "Foley's Honey and Tar relieves one of bronchitis very quickly."

Hoat Mon!—The Kilties are com-
ing!—Idlehour Sunday.—adv.

Most Economical

Wear—life—service—mile-
age—safety—comfort. These are the things that count in a tire.

These are exactly what you get in United States Tires,—general all-round tire satisfaction.

This greater total of tire

values means greater economy—less cost of maintenance—less repairs and depreciation.

Car owners who do their own thinking prefer United States Tires. Their merit is recognized everywhere.

We have them—a type and size for every car.

We know United States Tires are good tires. That's why we sell them

The House of Kuppenheimer Clothes

A Kuppenheimer Fall Overcoat

—the standard by which others are judged

For sheer style, solid comfort, downright good looks, and real quality and value, these new Kuppenheimer lightweight overcoats cannot be surpassed—or even equalled.

The styles are very new and very distinctive—created by master-designers who know what young men like; carefully selected fabrics, and tailoring that expresses refinement in every detail.

Many have the fashionable all-round belt, others the stylish high-waist effect. Then there are new ideas in lapels, pockets and plaits.

A pleasing array of single and double-breasted models, all in a wide range of patterns, fabrics and color-tones—grey, brown, oxford and heather shades in herringbones, vicunas, iridescent cloths, diagonal oxfords and tweeds. Prices range from \$40 to \$60. Extra-values at \$45. Others at \$30 up.

John M. Burkheiser
